- Subject: Invitation to Internet Society INET conference, 9 Nov. 2011 in Bucharest Intercontinental Hotel

<http://events.linkedin.com/INET-Bucharest/pub/781799>

Dear Sir, dear Madam,

The Internet is the primary cornerstone for business and communication today. But the decisions we make in the coming months and years will determine whether it remains a global platform for innovation and expression for people everywhere.

In order to continue being a trusted, mission-critical platform, the Internet must be seen and proven to be secure, reliable and private.

This conference will consider:

Internet access in Romania (from a national and international perspective)

Trust and Privacy

Freedom of speech

The future of the Internet

As well as keynote presentations, there will be three panel discussions on the challenges and opportunities facing Romanian Policymakers, business and citizens.

This conference is set to create a stimulus for learning, collaborating and defining strategies that shape the future of the Internet. It is a unique forum to meet, discuss and learn from the people driving the development of the Internet.

We will be glad to count you among our guests for this first Internet Society conference in Romania, dedicated exclusively to the Internet and its challenges. In case you cannot be there, make sure to tune in on the Internet Society Romania website on Wednesday November 9 and watch the live debates here: <http://www.isoc.ro>

Registration to the event is free of charge, however only limited slots are still available.

For registration and more details, please visit the Internet Society website at <http://www.isoc.org/isoc/conferences/inet/11/bucharest-agenda.shtml>

Looking forward to meeting you there,

Eduard Tric
Internet Society Romania Chapter President
