

The American Society for Microbiology
Opportunities for Students and Faculty

The American Society for Microbiology (ASM) strives to advance microbiology not just in the US, but around the world. Please share the following ASM opportunities with students, faculty and colleagues at your institution:

Join ASM at significantly reduced membership rates, receive one FREE ASM journal!

As a resident of a lower middle-income country, ASM invites you to join and connect with a Network of over 40,000 microbiologists worldwide.

Membership

- Full Membership: \$27 (savings of 57%)
- Post-Doctoral: \$19 (savings of 56%)
- Student: \$17
- Receive one of ASM's 11 world-renown electronic journals FOR FREE (a value of up to \$208 depending on the journal you choose!)

Additional benefits

- Networking and Scientific Exchange: Network within your scientific specialty, be a part of the ASM community, attend ASM meetings and conferences.
- Discounts: Obtain discounts on ASM conferences, meetings, books, and other products.
- Recognition: Qualify for scientific and service achievement awards, travel grants, fellowships and professorships.
- Service: Serve as a volunteer, e.g. as a member of a committee or board, ASM mentor, or ASM Ambassador or Country Liaison, among others.

For more information on how to join or renew your membership, please visit:

<http://www.asm.org/middletiermembership>.

Professorship Program: Host an ASM Expert at Your Institution

The ASM International Professorship Program provides institutions of higher learning in resource-limited countries with funding to host hands-on microbiology short courses taught by visiting ASM members.

We encourage you to take advantage of this opportunity to bring an expert visiting professor to your institution! Applications should be submitted jointly by the prospective visiting professor and the host. If you need assistance connecting with an ASM partner you may search the online Program Database of ASM members interested being visiting professors.

To learn more about the Program and search the Database of Visiting Professors please visit:

<http://www.asm.org/international/professorship>

Fellowship Program: Research Funding for Students

ASM International Fellows may travel anywhere in the world to perform research with a host scientist! These Fellowships are open to promising young investigators in resource-limited countries who are in the process of obtaining, or have obtained within the past 5 years, their graduate degree in any of the microbiology disciplines.

Applications should be submitted jointly by the prospective fellow and the host. Students in need of a host professor may search the online Program Database of ASM members interested in hosting international fellows.

Students may learn more about the Program and search the Database of Hosts by visiting:
<http://www.asm.org/international/fellowship>

International Mentoring Program: Guidance for Students

Through the International Mentoring Program experienced ASM members offer assistance to students and early career scientists ranging from giving career advice, to reviewing a paper for publication, to hosting the mentee in their lab. The program boasts over 900 ASM Mentors from around the world, representing all fields of microbiology.

Encourage your students to connect with a Mentor by searching the online Program Database available at: <http://www.asm.org/international/mentor>

We hope you will take advantage of these unique opportunities!

**Please encourage your students and colleagues to participate in these programs
by forwarding this email.**
