The university provides an education that is student-oriented, flexible and personal. All courses are taught by highly-qualified and experienced faculty members with a wealth of practical experience in their fields.

EU faculty works with students on an individual basis to create a cooperative and caring learning environment in which human values flourish. Our pragmatic approach to experiential business education with emphasis on the case-study method is proven to effectively prepare students for leadership positions in the modern business world. Students also benefit from a truly multicultural and multilingual environment that presents excellent networking opportunities.

EU cooperates with universities such as University of Derby, U.K., Nichols College in U.S.A., Shinawatra International University in Thailand and Peking University in China to deliver joint BBA, MBA and DBA programs that allow students to simultaneously obtain two degrees from two internationally-accredited business schools.
