DAAD information centre Tbilisi
Zandukeli st. 16, 0108 Tbilisi

Workshop "Research Proposal Writing" (Life sciences)

March 12th (in German) and 13th (in English), 2015

Tbilisi State Medical University

Tbilisi, February 19th, 2015

If you are planning to apply for a research grant in Germany in the field of life sciences and you are insecure how the proposal has to look like, what has to be in the research plan und what is a realistic time frame this workshop will help you.

Prof. Dr. Michael Lentze, em. professor of pediatrics from Bonn (Germany), will share his experience and show you what it takes to write a convincing application for a research grant. He will provide an overview on ongoing research projects granted by national and international (EU) agencies. For medical doctors he will also outline the current legal situation for working as a doctor in Germany.

On March 12th the workshop will be held in German, on March 13th in English. You can participate on either one day or on two days to train writing in both languages. Please indicate preference if there is not sufficient capacity for both.

The workshop is intended for:

PhD and/or MD in (dental/veterinary) medicine or PhD/MA in life sciences. Students can also participate as of 5th year in (dental/veterinary) medicine or 2nd year MA in life sciences.

Language requirements: English and/or German at the level B2

For application please fill out the attached form and submit by March 5th to:

Dr. Martin Praxenthaler, DAAD information centre Tbilisi
praxenthaler@daad.org.ge

We are looking forward to your application!
